TUESDAY EVENING, NOV. 2.

It is a boy this time at Ex-presi-
dent Cleveland's home.

The deadly cigarette carelessly
thrown upon the floor caused the
loss \$500,000 by fire in St. Louis

That Atlantic coast hurricane
was the forerunner of the cyclone
that will strike this country about
in spots on November 2.

It is a pleasure to state that Mrs
Oscar Turner, who was so ill that
her death was hourly expected, is
now rapidly improving, says the
Louisville Times.

Suicides, killings, hangings and
death from exposure are the re-
ports from the gold hunters who
are trying to reach the Klondike
regions.

Ex-President Cleveland did not
increase his popularity among
democrats by going out of his way
to declare himself in favor of Low
for Mayor of New York.

Last week's issue of the Clinton
Democrat was a dandy good one
for democrats, and what it did for
the other kind was "largely suffi-
cient."

The Tennessee Centennial Expo-
sition, which has been a marked
success, closed last week. It was
a credit to its promoters and a
good advertisement for the State.

With all due respect to Gen.
Miles, we cannot possibly under-
stand how any good could be ac-
complished by increasing the
regular army, as he recommends.

The tariff law is not a revenue
producer. It is simply a tax
which the people have to pay to
the manufacturers, who put up
money to secure the election of
McKinley.

Our neighboring town of Benton
is all broke up over the granting
of whisky license by its city
council, in defiance of the wishes
of a large majority of her citizens.
There is likely to be some trouble
over the matter.

As further evidence that Parker
is aiding the republicans, the
Paducah Sun comes to his defense
in the sell out to the republican
chairman of the executive com-
mittee, as exposed here last week.

What's the matter with all of
our big men? It was only last
week that Hon. J. K. Hendrick
went to Louisville for treatment,
and now comes the report that our
big commonwealth's attorney,
Garnett, has also gone there un-
der treatment of a noted physician.

The exposure of Jo. Parker's
alliance with the Republicans, as
made by Mr. Taylor at Murray
Monday has so humiliated the
Populists Republican that he has
canceled all his engagements in
west Kentucky and slunked out of
the district.—Fulton Democrat.

It is said by the best medical
authority that the most insidious
way in which disease introduced
into the humor system is through
the water used for drinking. Then
how important that we have pure
water, and how are we to get it
without water works?

Some unregenerate newspaper
man says, "It is the sanctified
people who 'light out' on hear-
ing the first report of an epidemic
in their midst. They seem to for-
get all about their sanctification and
don't wish to take any chances in
'in the sweet bye and bye.'"

Senator Deboe is still charging
up and down the state destroying
the last flattering fragments of the
massacred, mangled, mutilated
Queen's English. At Stanford
Deboe stated that the democrats
"had proven requisite to every
trust."—News.

Jo Parker went back to Louis-
ville and told the Courier-Journal
how he skinned Taylor, and said
Taylor read a letter in which he
sought to make it appear that he
(Parker) had endorsed Judge
McBeath. But Joey failed to tell
about the Hampton letter to chair-
man Graham, and the skinning
that he received at the hands of
Taylor.

In 1878 yellow fever in New Or-
leans was at its highest point about
the first of November and entirely
disappeared in one week after the
mercury fell to 45 degrees. In
Memphis it disappeared immedi-
ately after a killing frost in
October. That was the most wide-
spread and fatal epidemic of the
disease ever known in this country.
The present is the mildest ever
known and at this late season no
alarm should be felt here.

A local newspaper beats the
world as an advertising medium,
says an exchange. A hand bill
attracts attention by accident.
The newspaper carries your mes-
sage to a waiting audience. The
fence and barn door "ad." is a
corpse that can be looked upon by
a few neighbors who have to go
near it. The newspaper "ad." goes
into the home, takes a seat
in the family circle, and talks
right to the hearts of the many
thousands of people who pay their
money for that kind of entertain-
ment. They love the family paper
and read it with confidence.
Nothing equals a good, live local
paper when it comes to reaching
the people. Try it and see for
yourself.

FOR RESTORATION.

It is understood that Rev. J. C.
Hooks, who was expelled from the
Memphis conference for miscon-
duct, would apply before the com-
ing conference for the restoration
of his credentials. He claims to
have thoroughly repented and re-
formed since leaving. He now
resides near Benton, Ark.

Merit

Is what gives Hood's Sarsaparilla its great
popularity, its constantly increasing
sales, and enables it to accomplish its
wonderful and unequalled cures. The
combination, proportion and process
used in preparing Hood's Sarsaparilla
are unknown to other medicines, and
make Hood's Sarsaparilla

Peculiar to Itself

It cures a wide range of diseases because
of its power as a blood purifier. It acts
directly and positively upon the blood,
and the blood reaches every nook and
corner of the human system. Thus all
the nerves, muscles, bones and tissues

IN MEMORIAM.

Whereas it hath pleased our
Heavenly Father, in His infinite
wisdom and goodness, to take from
us our beloved sister, Mrs. M. H.
Eaker, who departed this life Oct.
19, 1897. We, the members of the
Murray Baptist church, desire
hereby to express our appreciation
of her excellent character and our
grief at her loss.

Sister Eaker was not only our
oldest member in length of mem-
bership, but also one of the most
faithful. Being a careful student
of the Bible, she earnestly and
constantly sought to follow its
blessed precepts. To know her
was to love her. We gratefully
cherish the memory of her life
among us, which was ever char-
acterized by the christian graces,
gentleness, goodness, meekness
and temperance. At home, as wife
and mother, in the social circle, as
neighbor and friend, she exhibited
in an eminent degree the noble
traits of a virtuous woman. Of
her it could be truly said, "she
openeth her mouth with wisdom,
and the law of kindness is on her
tongue. She looketh well to the
ways of her household and eateth
not the bread of idleness. Her
children rise up and call her blessed
her husband also, and he praiseth
her." During the last years of
her life she was sorely afflicted in
the flesh. It fell to her lot to bear
the excruciating pains and sicken-
ing horrors of a malignant cancer,
but, through all these trials her pa-
tience failed not, and her un-
sweving faith in God and perfect
submission to His will were like
an inspiration and a benediction to
all those who visited her sick room.

Though we sadly miss her here,
we know that for her it was far
better to depart and be with Christ;
and we sorrow not as those who
have no hope, for she has but fallen
asleep in Jesus, and when He
comes again she will be with Him.
Now she rests from her labors and
her works do follow her. Let us
all strive to imitate her good
example, that we too may be ready
when our summons come.

We tender to her bereaved family
and especially the aged husband,
our profound sympathy, and pray
that He, who doeth all things well,
will comfort and sustain them, and
that even this most sad bereave-
ment may prove to them a blessing
in disguise.

TRIBUTE OF RESPECT.

Whereas, God, in His wisdom,
on the morning of Oct. 29. Cal-
led from our midst after a short ill-
ness, Lee Davis, one of our bright-
est Sunday school boys, just in the
bloom of boyhood, and bid fair to
a long and useful life, but God's
will be done, yet his death seems
so strange, and so sad to us that
we can scarcely grasp its meaning.
It seems that we only wait his re-
turn, but the visitor has reached
home, where the guests have no
longing for an earthly home, but
only beekon to their loved ones to
come on.

Resolved that we, as members
of Martins Chapel Sunday school,
of which he was a faithful member
after this tribute of love and re-
spect to his memory.

2nd- That in Lee's death our
ranks have been broken. The il-
lustrated class has lost a punctual
and faithful attendant, who seemed
anxious to meet his classmates
each Sunday morning. Classmates
he has gone, he will be with us
no more in Sunday school on
earth. Let us realize death is
abroad in the land and he plucks
the flower in the bloom of youth
and beauty, same as the aged
veteran; be ready.

3rd. To the sorrowing family
whom God has heavily laid his
hand upon, we can only offer our
deepest sympathy and commend

them to God's love.

4th. That a copy of these reso-
lutions be spread upon our minute
book, a copy furnished the Mur-
ray papers for publication, and a
copy tendered the bereaved family.

A Queer (?) Medicine.

There is a Medicine whose
proprietors do not claim to have
discovered some hitherto unknown
ingredient, or that it is a cure-all.
This honest Medicine only claims
to cure certain diseases, and that
its ingredients are recognized by
the most skilled physicians as be-
ing the best for Kidney and Blad-
der Diseases. It is Foley's
Kidney Cure. For sale by Martin

"STOP MY PAPER!"

After you get angry and make
up your mind to "stop" your
paper, to make the editor feel
humiliated, just poke your finger
in water, then pull it out and look
for the hole. Then you will know
how sad you are missed. The
man who thinks a paper cannot
survive without his support ought
to go off and stay awhile, when he
comes back he will find out that
half his friends didn't know he
was gone, the other half didn't
care a cent, and the world at large
hadn't kept any account of his
movements whatever.—Newsdealer
and Stationer.

THE POWER OF

Low Prices

—**(*)—

The eternal hammering down and keeping down profits to a "Live and Let Live" basis, means much to you from a money-saving standpoint. Never in our stores' history have you been invited to investigate such an assemblage of close profit merchandise as we ask you to look at to-day

Clothing

We sell the very best ready-to-wear clothing at lower prices than inferior goods can be bought for elsewhere. We are just as particular about the fit as you are; perfect fit and permanent good shape attracts the attention of your

friends. You speak well of our clothing and we get the benefit; that's our way of looking at it—and that's why we are so exacting about every little detail in our garments. We leave nothing but good for outside criticism. It's perfect satisfaction for you, and good business for us.

Our \$5.00, \$6.00, \$7.50, \$8.00, \$8.50, and \$10.00 suits way ahead of anything you ever saw. We want you to see 'em.

Overcoats

Overcoats at \$3.00, \$3.50, \$5.00, \$6.00, \$6.50 and \$7.50 and on up. Good goods, cheap and good fits. See 'em.

Dress Goods.

The old saying that "Goods well bought are half sold" still holds good up to a certain point, but in these days of new methods goods can not be bought often enough unless there is fast selling to help the buyer take "lots" and quantities. As everybody can sell an unlimited quantity of anything that is good, desirable and cheap. With a live and eager established trade. We have an outlet for yards and dozens greatly in excess of other stores.

Ladies' heavy flannel skirts at 75c, worth \$1.00.

Skirting flannel at 50c a yard, double width and extra heavy.

Bokhara flannelette at 10 cents.

All wool suitings in blue, navy cardinal, and black at 30c, 40c and 50c the yard.

Ladies cloth, in colors, at 75c, worth \$1.00 a yard.

Cassimeres 25c, 35c, 40c and 65c a yard, and good values.

Flannels

In plain white flannels, red, blue gray, scarlet and blue mixed, from 15c to 30c and 40c per yard. Scarlet and blue twill flannels, pure wool 20c, 25c and 30c a yard. Irish Frieze at 15c, 20c and 25c the yard just the thing for ladies' skirts.

Judge Brewitt's lieutenant, David, has already given notice that he will contest the election if he is defeated, on the grounds that the ballots were not given out to the election officers at the proper time. Sauce for the goose should be all right for the gamler.

That hacking cough is undermining your constitution—snapping your strength. Dr. Bell's Pine Tar Honey will cure it. This is one of the most valuable remedies of modern times for coughs, colds and bronchial

trouble.

The Times is published every Tuesday in the year and at the small price of 50c cash in advance, 75c if we have to wait any time. You can't well afford to do without it. Try it and if you don't like it you can drop it at any time that suits you.

Mr. Fred Burton, the barber, wishes to inform the public that he has secured the services of Charlie Province, a first-class barber, and solicits your patronage. First-class work guaranteed, neat, nice and clean. Give him a trial.

Boys with hats on the back of their heads and long hair hanging down their foreheads and cigarette and snuff stories in their mouths are cheaper than old worn out horses. Nobody wants them at any price. Men will not employ them and girls will not marry them. They are not worth keeping by anybody and are too worthless to keep themselves. If the boy reading this finds that it suits his description, let him take a look at himself and do what he thinks is the best thing to do.

Catarrh in the Head, that troublesome and disgusting disease, may be entirely cured by thorough course of Hood's Sarsaparilla, the great blood purifier.

Hood's Pills cure nausea, sick headache, indigestion, biliousness. All druggists. 25c.

The Memphis Annual Conference which was to have met at Trenton, Tenn., has been postponed because of the influenza epidemic. It cannot meet there, and the same applied to Louisville and the two refused to accept of it. All this because there are a few cases of yellow fever in Tennessee. It seems a little strange to a summer that the town of Memphis should be so scared about influenza and of being taken hence when so many of them are ready and waiting to go up yonder.

Persistent Coughs

A cough which seems to hang on in spite of all the remedies which you have applied certainly needs energetic and sensible treatment. For twenty-five years that standard preparation of cod-liver oil,

SCOTT'S EMULSION

has proved its effectiveness in curing the trying affections of the throat and lungs, and this is the reason why: the cod-liver oil, partially digested, strengthens and vitalizes the whole system; the hypophosphites act as a tonic to the mind and nerves, and the glycerine soothes and heals the irritation. Can you think of any combination so effective as this?

Be sure you get SCOTT'S Emulsion. See that the man and fish are on the wrapper. 50c and \$1.00, all druggists. SCOTT & BOWNE, Chemists, New York.

E. H. Haley, New Providence, Ky. IS RECEIVING NEW FALL GOODS. PRICES RIGHT CALL AND SEE HIM.

Go to the racket store for cheap shoes and clothing Hats &c.

Don't fail to see E. S. Dinguid & Co's line of lamps, glass and queensware—well assorted—price low.

It's the Spot.

It is a severe cold and your throat and lungs feel sore. Take a dose of Foley's Honey and Tar, when the soreness will be at once relieved, a warm feeling and the parts affected will be expurged and you will say: "It feels good, IT HITS THE SPOT." It is guaranteed.—Martin Dale & Co.

Good Health! Pure Milk.

If you want pure, clean milk, you must get it from the Brentwood Dairy, you can't get it any where else. Now if you don't believe this, come out to Brentwood some evening about 5 o'clock and we will prove the truth of this statement. Brentwood is one half mile north of Gilbert's factory, all are respectfully invited to come and see what we can do for milk and you will agree with us that you have not been getting pure, clean milk.

A heavy cold may lead to pneumonia or consumption. Foley's Honey and Tar taken in time efforts perfect security from serious results. For sale by Martin Dale & Co.

Hon. W. J. Stone spoke at six points in this county this week, and everywhere he went democracy is aglow. Lyon county will be on hand next Tuesday with an increased majority. Let'er go.—Tale of Two Cities.

MORE TROUBLE.

We expected when George made that announcement that he would get into trouble. He went to Trigg county, thinking he was a candidate for commonwealth's attorney, and about the first thing he did was to jump on the Cadiz Telephone. Of course the Telephone didn't do a thing to him; it merely said:

"The Telephone is afflicted with an insectivorous swarm of buzzing willies, who imagine they are 'runnin' fur offis.'" Instead of arousing us to anger, they merely excite our wonder how it was that Providence ever worked itself into such a playful mood in their creation. It cannot be other than that Providence undertook to show how near it could go in the formation of clay into human mold and give it action without the other faculties ordinarily possessed by men outside of the Feeble Minded Institute or a lunatic asylum."

CORRESPONDENCE.

Wadesboro.

After a silence of a few weeks I
write, and as news is scarce here, I
hardly know where to commence.

Conductor Alex Fulton, wife
and daughter and Miss Effie Cov-
ington have returned from the Cen-
tennial and Lookout Mountain.
They report a nice time. They
brought some relics from Look-
out.

Mr. Jack Wells has just re-
turned from the Centennial and
was well pleased with his trip.

Ye scribe attended church here
yesterday and listened to a sermon
on sanctification by Rev. J. E. Skin-
ner. He held his audience spell
bound for about seventy five min-
utes, and I think to the satisfac-
tion of all present.

The protracted meeting is now
in progress at Hardin, conducted
by Revs. Castleberry and Skinner.

Our base ball team, or part of
them, had an engagement with the
Murray team last Saturday, in
which they were cleaned up badly
and while they were nicely treated
by the club, they were badly treat-
ed by the outsiders, mostly by the
boys, but among the boys was one
full grown man who, they say,
made himself ridiculous in the
sublime. I will speak for our
club, and say to any one, or all,
who may come that you will be
treated like gentlemen, if you will
come down to our town.

Aubrey Covington and wife
have been visiting here three week
but were called home to Martin,
by a telegram, announcing the dan-
gerous illness of Mrs. Covington's
brother. Aubrey has bought out
the mercantile company here and
will move here right soon.

Rev. J. E. Skinner has sold his
house and lot to Dr. Covington
and his land to R. H. Trevathan
for his daughter, Mrs. Lucy Linn.
We regret very much to give up
Bro. Skinner and family, and we
can cheerfully recommend them to
the good people where ever they
may go.

The farmers are sowing wheat,
gathering corn and getting their
winters wood.

Our flouring mill is doing a
good business under the manage-
ment of Dan F. Pace.

Our blacksmith shop is soon to
be opened up here again.

Mrs. Stewart is selling out and
will move to Gibson county, Tenn.,
so I understand.

I wish you well,

SOFT SHELL.

GETTING IN READINESS FOR WINTER.

Some Useful Suggestions for the Farmer.

In some parts of our country winter forms no small proportion of the year. Indeed, in the sections considered the most mild and favorable and where ordinarily but comparatively little attention is paid to securing proper shelter for the protection of animals during winter season, severe storms or such cold weather occasionally comes, as to cause much suffering and death of stock and loss to the owners.

Even where the conditions are much more favorable than at the north, it will be found to abundantly pay to provide sufficient protection for the animals and means for their subsistence during the colder and more unpropitious portion of the year.

Advance is being made in this direction, which may be expected to become more general as its necessity is realized and the means for the purpose are at command.

The cost for such an improved condition of things will no doubt be less than the losses so frequently sustained from the want of them, besides the owner will find it so much more convenient with proper arrangements to care for his animals, and experiences much satisfaction in knowing they are thus so well provided for.

In the more northern portion of the United States this provision for the protection and sustenance of stock is imperative, and he who does not attend to the matter is blind to his own interests, if not criminally negligent.

Even in the older and well settled parts of the country great improvements in the matter of barns and stables have been made within the past twenty five years. The considerable number of small barns scattered about the farm have, in many instances, given place to a single large, one, of a capacity sufficient for all purposes. With these rightly constructed there is plenty of room for forage and animals and when properly arranged are so convenient as to reduce the labor in caring for them to the lowest possible extent. This is a great advance in the right direction and should be generally followed.

Animals that are kept in the stable for nearly half of the year as they are or should be, especially in the more northern portion of the United States, need to be provided for in a manner that will insure the largest degree of comfort and health, as well as the most satisfactory returns for the labor and care bestowed.

The stables should be roomy, warm, well lighted and properly ventilated. With such conditions there should be, with proper care to keep from contagion little danger from diseases.

Care should also be exercised in relation to the water for stock. There should be plenty of this, not too far away, but pure and wholesome and winter not too cold. Whether to have it in the stable where convenient is a question not yet quite satisfactorily settled in the estimation of farmers and scientific men. Some being well provided in this manner, have had it removed from the sta-

ble to the yard from sanitary motives.

These preparations for winter should be completed before cold weather arrives, so as to be in readiness to move the stock as soon as necessary.

And that will be pretty early in some parts of the country. Cows, especially, should be in stables at night and during cold and stormy days. There will be profit in this if the best results are expected from the dairy.

And the young animals should not be compelled to remain in the pastures until they cease to thrive and grow, as there will be a loss instead of gain in this. All stock should come to the barn in good flesh, as then it will be much easier keeping them in this condition than regaining it when once lost. To keep all animals healthy, thrifty and in good working condition "the year round" should be the constant effort of the farmer.

Crockett at the Alamo.

Col. Crockett, surrounded and closely pursued by a number of the enemy, retreated into a church and stationed himself in a niche in the corner, feeling them as they approached. When some eight or ten of them were laid before him, feeling of awe seemed to seize hold of the assailants. One of them who could speak a little broken English, probably preferring the signal honor of capturing so noble a specimen of American valor to present to his "derr" master," said to Crockett, "surrender, senior!" A flash of the most sovereign courage darted from the fiery eye, and as it pierced that of the enemy, he seemed to be transfixed. In a voice of thunder Crockett answered, "surrender, no! I am an American!" and as he spoke he sent a ball through the heart of the paralyzed foe. He appeared for a moment like wounded tiger, strengthened and buoyed by each additional wound; now hewing them down with his well tried sword—next dealing death with his fire arms. His person was literally drenched with his own blood; his strength must soon yield to its loss. Yet such physical power wrought to the highest degree of excitement can perform incredible prodigies. This was the last concentrated energy of a powerful man, aroused, animated and guided by one of the noblest attributes of man—love and liberty. He knew for what his life was about to be sacrificed; that devastation and butchery would follow the footsteps of his heartless foes that would be sacrificed to satiate the desires of the conqueror; and, feeling the holy inspiration of a patriot, he fell to pieces, his pistols fell to the floor, and nothing but his faithful sword was left. In the agony of death, with a terrible grasp, he brought his last weapon upon the head of the nearest assailant, and fell victoriously across his body into the arms of death. In this corner of the church there were twenty-six dead Mexicans, and no other Americans having fought or fallen at that point, it is considered beyond all reasonable doubt that all of them fell by the hands of Tennessee's favorite son.—An Old Newspaper Clippings.

SAVE MONEY.

Young man, it is not the money that you make that will cause you to rise in the world, or will cause you to get above the stings of poverty. The young man who works for twenty dollars per month and saves five dollars of this sum, will at the end of the year be just sixty dollars richer than the man who makes fifty dollars per month and spends the whole sum in extravagance. In fact the first named young man in the race of life will come out decidedly the better of the two. The one who gets the most and spends it all, is learning habits that will always keep him a poor man, while the other is forming habits of economy that will at last make him a man of wealth. The men of this country who have made the greatest success in life in a financial way as a general thing, are men who began life on very small salaries. Most of our habits, be they those of economy, or the opposite are formed early in life. A spendthrift at twenty one is apt to be a poor man at forty one.—Hustler.

THE TOLEDO WEEKLY BLADE.

Every intelligent family needs in addition to their local paper, a good national weekly. The greatest and most widely known general family newspaper is the Toledo Weekly Blade. For thirty years it has been a regular visitor in every part of the Union and is well known in almost every one of the 70,000 post-offices in the country. It is edited with reference to a national circulation. It is a republican paper, but it is not a party paper. It is honest and fair in the discussion of all public questions. It is the favorite family paper, with something for every member of the household. Serial stories, poetry, wit and humor; the Household department [best in the world] Young Folks, Sunday School Lessons, Talmage's Sermons, the Farmstead, the Question Bureau (which answers questions for subscribers), the News of the Week in complete form, and other special features. Specimen copies gladly sent on application, and if you will send us a list of addresses, we will mail a copy to each. Only \$1 a year. If you wish to raise a club, write for terms.

ALL ABOUT THE FARM AND STOCK.

Shadeless pastures are not always censurable, because they are often unavoidable, but they are always to be deplored for they cost stock a deal of torture.

Farmer: "But it seems to me you ask very high wages for a man that don't know how to plow." Patrick: "Sure sir, aint it harder for me if I don't know?"—Exchange.

A man writes the following to the Smithville News: I want to pay for my subscription, but I'm a little short of money; so I send you a half-dozen eggs. If you'll put 'em under a settin' hen they'll hatch out enough chickens to pay for a year's subscription.

Manure is better hauled out at once than left leeching away in the barnyard, but coarse manure hauled out and spread in the spring does not greatly benefit the crop this year. If you want an early result from it, you would better haul out and spread this fall.

The demand for Kentucky mules is such that many dealers have great difficulty in filling orders, says the Lexington Argonaut. Good stock is commanding better prices than for years past.

In proportion to its weight, a laying hen is one of the largest producers of eatable products on the farm, exceeding even the cow in this respect.

Grapes can be grown almost anywhere, and every farm, garden and village lot should have its vines. Perfection requires, high, well-drained, strong soil, well fed. Let the trellises run north and south, and be open to the sun.

There are some lands upon which fall plowing means a decided saving of time and labor in the spring, for it can then be fitted for sowing in the spring by the disc harrow only. This may be done upon clay or heavy loam soils, but will not do for that which is of a light sandy nature.

Seeing a query from a "Citizen," asking how to buy a cow, a farmer of wide experience in stock matters answers through the Wisconsin Gazette: "To buy a cow hitch up your horse and start for the country; this is necessary because there are more cows in the country than anywhere else. Start in any direction. There are cows for sale everywhere, provided the purchaser does not know what they are worth. Any cow that is

for sale is a good cow. The family always sells its favorite milk animal to the man from town. All cows are young when they are for sale. The wrinkles can be removed from the horns by dehorning. Buy a dehorned cow so that your neighbors cannot make fun of you. When you get her home perhaps she will be no good. If so sell her to the butcher and buy another, by the same process."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Editorial Chat.

Old newspapers are better for polishing windows and all kinds of glassware than cloth. Several thicknesses of them placed under the carpet, answers the same purpose as the carpet lining sold in the furniture stores.

When one sees a man profusely bandaged, arm in a sling, or hobbling on a crutch, he is disposed to enquire if a bicycle or a head end collision with our new-fangled prosperity was the cause.

When Benjamin Franklin wrote "A penny saved is a penny earned," I imagine he meant a penny skimmed from our daily living or from our necessities. That is not "a penny saved," in the best sense; it is a penny stolen from yourself. A penny saved, is a penny rescued from waste. An hour taken from needed sleep, is not an hour saved, but an hour stolen; an hour taken from idle gossip and turned to some good account—that is an hour saved. And it is the same way with our money and our products. There is no economy in self-denial. It is the duty of every man and woman to live the fullest and best life possible; to get the most they can of life, to nourish the body and mind and soul, and to develop them to the highest possible degree. This cannot be done by "skimping." A fuller, freer life is what we need. Economy is necessary, but we must not mistake what economy is. We must save the wastes; stop the leaks; but having saved, we must put our savings to some good use, else we are like the miser with his gold, a detriment to society instead of a good.

Another Good Boy.

A Detroit grocer was the other day hungrily waiting for his clerk to return from dinner and give him a chance at his own noon-day meal, when a boy came into the store with a basket in his hand, and said:

"I seed a boy grab up this ere basket from the door and run, and I run after him and made him give it up."

"My lad, you are an honest boy."

"Yes, sir."

"And you look like a good boy."

"Yes, sir."

"And good boys should be encouraged. In a box in the back room there are eight dozen eggs. You may take them home to your mother, and keep the basket."

The grocer had been saving those eggs for days and weeks to reward some one. In rewarding a good boy he also got eight dozen bad eggs carried out of the neighborhood free of cost, and he chuckled a little chuck as he walked homeward.

The afternoon waned, night came and went, and once more the grocer went to dinner. When he returned he was picking his teeth and wearing a complacent smile. His eye caught a basket of eight dozen eggs as he entered the store, and he queried:

"Been buying some eggs?"

"Yes; got hold of those from a boy."

"A lame boy with a blue cap on?"

"Yes."

"Two front teeth out?"

"Yes."

The grocer sat down and examined the eggs. The shells had been washed clean, but they were the same eggs that good boy had juggled home the day before.—Detroit Free Press.

You Use Envelopes?

Of course you do. Everybody in this age of civilization and correspondence uses them. But did it ever occur to you that millions of letters go to the Dead Letter Office every year, for some reason or another, that would be returned to the writers if their address were written or printed thereon? The increasing amount of "dead" letters has made it necessary for the Postmaster General to issue the following notice:

"DON'T mail any letter unless your address, with a request to return it upon the face of the envelope, so that in case of non-delivery it will be returned directly to you."

Of course the return request could be written, but who is going to write them when I furnish them printed at LESS price than the blank envelopes. Look at these prices!

|---------------|-----------|
| ONE HUNDRED, | 25 cents. |
| TWO HUNDRED, | 50 cents. |
| FIVE HUNDRED, | \$1.25. |

These envelopes are the regular sizes, of the best stock and well finished. I also print note heads, letter heads, bill heads, statements, circulars, cards, in fact anything, at prices that will surprise you. Bring or send me your orders.
